CONTAINING MICROBIAL CELL OR TREATED
PRODUCT THEREOF**

(57) Abstract:

PROBLEM TO BE SOLVED: To provide a method for preserving a liquid containing microbial cells or a treated product thereof to be subjected to heat sterilization, particularly an inexpensive method

enabling retaining enzyme activity after the heat sterilization.

SOLUTION: This method for preserving the liquid containing microbial cells or a treated product thereof to be subjected to heat sterilization involves aerating and agitating the liquid while adjusting the liquid to pH 6-8.
